5. About Us & Founder Section

* **Section Title:** Leadership & Founder Story

* **Headline:** Built by Sales & Real Estate Acquisition Veterans.

* **Content:**

> "WeCall wasn't built by a generic BPO agency or outsourcing middleman. It was founded on over 7 years of high-ticket sales leadership, with 3 dedicated years operating directly inside U.S. real estate acquisitions, dispositions, and real estate project management[cite: 1].

> Having managed deals across wholesaling, fix-and-flips, and rental acquisitions from list generation to closed escrow, our founder understands what acquisition managers actually need: **clean data, clear seller motivation, realistic price expectations, and immediate follow-up**. We know the difference between a tire-kicker who just wants to hear an offer and a truly distressed seller who needs to liquidate. Every process, script, and QA checklist at WeCall is built from real-world acquisition experience."

6. PRICING & ALLOCATION SECTION

Headline: **Stop Buying Leads. Start Buying Closed Escrows.**

Sub-headline: We don't sell random phone numbers or unvetted lead lists. We deploy fully managed, high-converting offshore acquisition desks built to lock up off-market deals on autopilot.

> ** ⚠️ ALLOCATION WARNING:** To maintain uncompromising lead quality, strict compliance, and dedicated management oversight, WeCall operates on a strict seat-cap protocol. **Allocations are filled on a first-come, first-served basis and are subject to immediate price adjustments as cohorts close.**
